REMAKEpro & Burn Series

high volume disc publishing with the industry's lowest cost-per-disc!

The **REMAKEpro** are ideal for organizations that need to produce anywhere from one to thousands of discs! Designed for industrial environments, the **RM-1** and **RM-2** come with one or two high-speed DVD/CD recorders, and the industry's fastest, lowest cost-per-disc inkjet printer, all integrated into a robust publishing solution. Also available is the autoprinter-only version, the **RMPro**. All three feature 100 disc input and output capacity, Microboards' enhanced automation for reliable loading and unloading of discs, and the ease-of-use you've come to expect with award-winning Microboards products. The **RM Series** comes complete with professional software.

NEW!

AUTOPRINTER

By utilizing the latest in HP inkjet technology, the print speed and quality of the **RM Series** of Disc Publishers and Printers is unequalled among disc duplicators. Separate C, M, Y, and Black ink cartridges means zero waste – and the lowest possible cost-per-disc. One set of ink cartridges can produce over 1,000 discs. Disc designs utilizing light text-only coverage could have a throughput at upwards of 250 discs per hour. Coupled with the 18X DVD/48X CD recording speed in a single recorder or dual recorders, the **RM Series** is the best solution for high-volume disc publishing.

COLORI SEPARATI

Disponibile in 3 versioni:

REMAKEpro Autoprinter (solo stampante)

REMAKEpro 1 (UN masterizzatore + stampante)

REMAKEpro 2 (DUE masterizzatori + stampante)

REMAKE High Volume Printer

The **RM-Pro** (see picture above) is the all-new print-only version of the high-volume **RM** production series. Using the same great HP inkjet technology as the **RM-1** and **RM-2**, the **RM-Pro** is the ideal printing solution when it comes to getting the most for your money at just 9 cents per disc.

Utilizing Microboards' patented disc singulation technology, the **RM-Pro** is designed to print hundreds of discs on a weekly basis. Its 100-disc throughput capacity allows for unattended operation.

The included software suite for all three products includes simple label design software. Design your label from a point-and-click application, or use popular design programs such as Photoshop® and import directly to the software. Publishers with recording ability include recording & job creation software for both Mac and PC, including support Windows 2000, XP, and Vista. Record or copy virtually any CD recordable or DVD +/- Recordable format, including Dual Layer DVDs!
